

# N10

## Manual Detergent Pre-Diluted Solution

An alkaline detergent and hard surface cleaner for use in the biopharmaceutical and cleanroom industries.

InSpec N10 hard surface cleaner

### GENERAL GUIDANCE

**USE INSTRUCTIONS:** Do not dilute.

InSpec N10 is designed for cleaning hard surfaces. Remove any outer packaging and spray onto the surface or pour into a suitable bucket. Apply the solution onto the surface to be cleaned. Ensure good cover of the surface with the solution. Clean the surface with a mop or wipe. Rinse or squeegee away residue as required.

### TECHNICAL DATA:

N10 is an alkaline solution (pH 12) containing 4% actives. The product is a blend of alkaline detergent, surfactant and sequestering agents designed to assist the removal of process residue and general soiling.

### STORAGE:

Store in original packaging, away from sunlight and extremes of temperature. Full guidance on the handling and disposal of this product is provided in the Material Safety Data Sheet (MSDS).

### SAFE HANDLING:

Always wear gloves and goggles or face protection. Always read the label and the MSDS before use.

### MATERIAL COMPATIBILITY:

Application of solutions, when used as directed, will not affect materials normally encountered in the cleanroom. See compatibility information in the Technical File.

### BENEFITS

- Designed for cleaning floors, walls, ceiling and other hard surfaces.
- The Dycem recommended cleaner of Dycem flooring.
- Rapid action alkaline detergent.
- Suitable for manual cleaning.
- Available in convenient ready to use formats.
- Designed for the removal of general process derived residue and soiling.
- A useful solution for removing residue accumulated by the regular use of rotational biocides.
- Defined 24 month shelf life.
- InSpec N10 trigger spray has a validated 3 month in-use shelf life.

### TECHNICAL USER INFORMATION

InSpec N10 is a pre-diluted detergent.

Prediluted formats use WFI quality water.

InSpec N10 is manufactured to GMP in an ISO 6 cleanroom. The product is filled and capped in an ISO class 5 environment.

The solution is filtered through a 0.2 micron filter into the final packaging.

All InSpec products are supplied with key certification such as sterility and conformity.
